ICE CREAM ROLL MACHINES

Professional rolled ice cream equipment, accessories
and training with worldwide delivery

What is rolled ice cream?

Rolled ice cream began its rise to fame in Thailand and South East Asia. Street food vendors invented a way to entertain customers and offer unlimited flavours. Pictures and videos soon spread across social media and the trend grew across the world. Now you can find rolled ice cream businesses in major cities and tourist destinations serving excited customers their tasty ice cream rolls.

Customers watch their choice of ingredients chopped up on the -30°C ice pan and freeze instantly. The mix is spread out and right before their eyes, the ice cream rolls are curled into shape. Ice cream rolls offer endless flavours and

entertainment. Why just have ice cream, when you can have a captivating show too?

Ice cream rolls are excellent for a stand-alone business, or addition to your existing food business. We have successfully supplied to start-up businesses, dessert shop franchises, hotels, event venues and kitchens to name a few.

Our industry leading experts designed and now manufacture the most advanced rolled ice cream machine the world. We ship worldwide and cater to all electrical standards, such as 110v in America.

The Process

Ice Pans

DROP-IN

As a built-in unit, the ice pan will drop into a hole in an ice cream cart or counter top area. They should have appropriate ventilation. We also sell approved ice cream carts.
